Ref. No.: JFAL/CERT/EPTL

Date 15/09/08

FOR WHOM IT MAY CONCERN

This is to certify that M/s EMPOWERTRANS (P) LTD, Bhubaneswar, has successfully completed for us the Turn key project for the 132 KV LILO Switching Station and associated 132 KV Overhead line at our Ferro Alloys Plant in Sukinda, district Jajpur Orissa, against our Purchase Order Nos. JFAL/PO/05/0031/64, 65 & 66 all dated 7th August 2006, and valued at Rs 3,03,00,000/-.

The scope of the firm not only included the Supply of all electrical equipment, structures etc required for the LILO substation besides Towers, conductors and related hardware and accessories for the Overhead line, but also the erection, commissioning as well as all civil foundation works.

The firm has also rendered valuable service in obtaining all the statutory and other approvals so that the power line facilities could be commissioned well in time to meet the operational requirements of the Ferro Chrome plant.

Although not within their contractual scope, the firm has also unhesitatingly assisted us in rendering free after sales service, as also in the matter of operational co-ordination with OPTCL and other regulatory bodies.

Based on our experience with the firm, we would be quite interested in inducting them as our partner for our future projects also.

This certificate is being issued to the firm on its own request, for the purpose of establishing its credentials with other customers. While wishing them well, we would expect them to render the same quality of service to other customers as was received by us.

For Jabamayee Ferro Alloys Ltd.,

Puspanjali Bai Samant -
Managing Director

RAWMET

TO WHOMSOEVER IT MAY CONCERN

This is certify that M/s EMPOWERTRANS PRIVATE LIMITED of C-17 Palash Palli, Bhubaneswar, had successfully engineered, supplied, erected and commissioned for us the 132 / 11 KV LILO Switching Station, comprising amongst others, incoming, outgoing, bus coupler and transformer feeders, against our Order Nos. RFI/PO/05/0031/492, 493 & 495, all dated 19th July 2005.

The total scope on the firm also included the design, supply and erection, with related Civil works, for the 132 KV Single Circuit Overhead LILO Line associated with the Switching station.

The entire project was carried out professionally, and was completed within one and a half years, as per the requirements of the project schedule, in a time bound and quality driven manner. During the execution of the project we received all the support required for obtaining the necessary statutory clearances from local statutory bodies, through the initiatives taken by EMPOWERTRANS.

We appreciate the good work done by the firm and wish them success in the days ahead.

Subject: Completion Certificate Against Your W.O. # LMZEIL/PROJ/BalimelaHEP/Extension/03

Dear Mr. Bansal,

This is further to our telecon on the 3rd of this month on the above subject. We understand that you have already received the formal completion certificate from the ultimate customer. We, therefore, feel there should be no further reservations for you to furnish us a completion certificate for our scope of works covered in your order on us

We would be obliged if the above is issued to us expeditiously.

Regards

TO WHOMSOEVER IT MAY CONCERN

M/s EMPOWERTRANS (P) LTD, Bhubaneswar, has executed and successfully completed for us, through M/s AREVA T&D Ltd, the 2 Nos 220 KV Bay extension works at Budhipadar Sub-station at Jharsuguda, where their scope included, besides erection testing commissioning, the Design, Engineering, Supply and construction of the entire civil works.

During the course of the execution of this project, the firm had also assisted us extensively in our dealings with OPTCL and other statutory agencies, and helped us in getting through difficult situations, although these functions were not covered in their scope.

Based on the extremely satisfactory performance and services provided by the firm, it was decided jointly by us and the other beneficiaries, (M/s NALCO and Utkal Aluminium Ltd), to place on them, directly, the complete turn-key order (Order Nos. 8153 & 8154 both dt 06/12/08, valued totally at Rs. 36,54,32,010) for the 220/33 KV, 9 bay Laxmipur Sub-station package, which includes the complete Design, Supply, Erection Testing, Commissioning with Civil works, besides help in land acquisition, and obtaining all approvals and permissions from CEA/OPTCL and other agencies.

This certificate is being issued to the firm on its own request, for the purpose of establishing its credentials with other customers, and without any prejudice to the terms of the contract.

26th May 2009

To Whomsoever It May Concern

We had awarded to M/s EMPOWERTRANS (P) LTD, Bhubaneswar, (vide order Nos. S&P/0015 & S&P/0016 both dt 15/12/06), on a turnkey basis, the complete 220 KV Double Circuit Transmission Line package from the Budhipadar Grid Power Substation to our Smelter & Captive Power Plant at Lapanga, Sambalpur, Orissa, covering a route length of about 20 KM, comprising 73 Transmission Towers, and valued at Rs. 22,60,58,879 /- .

The scope of the job included all supplies, erection, commissioning and civil foundation works, as also the responsibility of obtaining all approvals/permissions/ clearances from OPTCL and other statutory/public bodies like Railways etc. The scope also included completing the Right of Way (ROW) formalities, and compensation for the same, in a manner that would insulate us completely from the vagaries of local socio-political complexities.

While the firm has already completed the supply and erection of the 73 Towers, (with associated stringing of conductors), as per their original scope, they have also been entrusted with the erection and commissioning of some additional towers that had been necessitated due to subsequent changes in layout.

Owing to the satisfactory performance of the firm in all areas, we have awarded them with a similar 220 KV Double Circuit Transmission Line project for connecting the 220/33 KV Laxmipur Sub-station to the M&R complex at Kansariguda, in Raygada district, Orissa.

This certificate is being issued to the firm on its own request, for the purpose of establishing its credentials with other customers, and is issued without any prejudice to the terms of the contract.
